

Note that the term quarantine applies where an individual is exposed to someone with a suspected or a confirmed COVID-19 case. Isolation is used where an individual has COVID-19 symptoms or has tested positive for COVID-19.

\* Need to check local health department rules for the county to determine whether the lesser 10 day quarantine is acceptable or whether the county continues to mandate the full 14 day quarantine. Below is a chart with where some local counties stand on the issue:

County	10 Day Quarantine is Sufficient	14 Day Quarantine is Mandated
Oakland	X	
Wayne	X	
Macomb	X	
Washtenaw	X	
Grand Traverse		X
Kent	X	**

\*\* Kent County requires 14 day quarantine for individuals who reside in congregate living setting or work with high risk individuals.
